PERSONAL PROFILE

I am an ambitious Computer Science student at the University of Dundee with international programme experience and a strong foundation in problem-solving, teamwork, and technical innovation. Through initiatives such as the U21 Global Citizenship Programme, the iNCiTE Summer School, and the Sutton Trust Tech and Digital Insights Programme, I have developed skills in collaboration, leadership, and communication across diverse professional environments. Passionate about technology, data, and global impact, I am eager to apply my abilities and adaptability within a professional setting while continuing to learn and contribute meaningfully.

SKILLS & QUALITIES

- ☐ **Communication:** Clear and professional interaction across written, verbal, and digital platforms, with experience presenting to diverse audiences
- ☐ **Teamwork & Collaboration:** Strong collaborative mindset developed through international programmes, hackathons, and group projects
- ☐ **Service Quality:** Consistent delivery of high-standard support in technical and community settings
- ☐ **Adaptability:** Skilled in Python, Java, Microsoft Office, Git, Jupyter, and digital collaboration tools
- ☐ **Technical Proficiency:** Skilled in Microsoft Office, broadcasting tools, and digital platforms
- ☐ **Empathy & Inclusion:** Committed to creating inclusive environments and working effectively with diverse groups
- ☐ **Problem Solving:** Analytical and solution-focused approach, applying both technical knowledge and creativity to overcome challenges
